

Pop Tab Bracelet

<http://www.youtube.com/watch?v=CM44mr40mD8&feature=youtu.be>

Materials:

24 or so pop tabs

Elastic cord

Embellishments (optional)

Instructions:

Cut 30" length of stretchy cord (black in the illustration). Loop it through the first pop tab as shown so that you have the loose ends even.

Place second pop tab "upside down" and flipped over as shown. Run stretchy cord through the wholes as shown.

Add third pop tab as show, right side up and in the same direction as the first one. Cross the stretchy cord in an X pattern through the holes as shown. Embellishments such as buttons or beads can be added with the X.

Add the fourth pop tab in a similar manner as you did the second pop tab.

Continue this pattern of adding pop tabs until you have reached the desired length of your bracelet.

Neatly tie the ends of the stretchy cord together in a way that will blend in with the overall design.

You will notice that your bracelet is reversible, with the X design on one side and a — design on the other.
